

PowerLink™ HV USA Unshielded High Voltage Power Cable

Performance & Design Benefits:

- Proudly made in the USA
- Tested to ISO 19642-5, Class D
- Rated Voltage Max 1000VAC and Max 1500VDC
- Operating Temperature of -40C to +150C
- Flexible design for improved cable assembly routing
- Durable and resistant to flame, liquids, chemicals, ozone, UV, water and abrasion
- Cable is designed for consistent, easy stripping & processing
- RoHS & REACH Compliant
- PPAP available on request
- Special constructions and customization options available

PowerLink HV USA Cable Construction:

- Stranded Bare Copper Conductor
- Cross-Linked Polyolefin Orange Insulation, 150C (Black & Red options)

PowerLink HV USA Design Data:

Part Number	Cond. Size (mm ²)	Conductor Construction (mm)	Cond. OD (mm)	Insulation Thickness (mm)	Insulation OD (mm)	Copper Weight (kg/m)	Total Weight (kg/m)	Max DC Resistance (/km)
