

Amphenol introduces one of the most innovative and imaginative cable management solutions in the world! With easy assembly and installation, the 2" FlexTrax® is a flexible cable manager that enables quick access to cables for rapid changes in complex routing applications. The track design enables high visibility to cable management capacity and measures 2" x 2" x 1ft.

Key Benefits

Adaptable

- Snap multiple sections together to create any length
- Mounting accessories can attach to the rear or side walls for maximum versatility
- Can be trimmed to custom lengths with side-cutters

Secure

- Multiple clamping options to a variety of surfaces
- Gates overlap to securely contain cables
- Detents hold gates in closed position
- Optional latch provides a positive locking latch

Durable

- Strong, polypropylene material
- Flame extinguishing rating (UL94 V-0)
- Strong framework with high impact resistance
- Can be routed in complex paths
- Shape can be changed as needed

Other Unique Benefits

- Gates can open and close when channel is flexed
- Patented design
- Can be stretched or compressed to line up with existing holes
- Cables can exit through a hole or gates can be removed
- Easily see cables and available capacity

FlexTrax with WaveTrax

FlexTrax with C2E

Applications

FlexTrax® is suitable for a variety of indoor applications such as:

- Slotted duct replacement
- Split-tube replacement
- Vertical cable manager (on a 2-post rack or inside a 4-post cabinet)
- Desk cable management
