

HARSH ENVIRONMENT

Distribution Point

Amphenol Multiport Terminal Plug and Play Distribution Point

Ideally suited for applications that require customization and future expansion

Ingress Protection	IP67/IP68 & GR-771-CORE
Installation Temperature	-18°C to +40°C
Operating Temperature	-40°C to +75°C
Configurations	4,6,8,12 Port
Input	Plug and Play or Stub
Outputs	Various Adapter Styles
Max Fiber Pairs	48
Fiber Type	Single Mode/ Multimode

Direct Connect Solution Pre-terminated Breakout Point

Ideally suited for applications that require speed of deployment and limited footprint impact

Ingress Protection	IP67
Installation Temperature	-20°C to +60°C
Operating Temperature	-40°C to +70°C
Configurations	Fibre, Power, Hybrid
Max Power Pairs	9
Conductor Size	6,8,10,12 AWG
Max Fiber Pairs	48
Fiber Type	Single Mode/ Multimode

Solutions with the Customer in Mind

Amphenol delivers a comprehensive line of harsh environment fibre optic solutions that are designed to be suitable for the continued 5G network evolution. Our solutions are designed with the customer in mind to improve speed of deployment, reduce deployment cost, reduce maintenance cost, reduce risk of failure, and simplify infrastructure deployment.

Connecting People + Technology
